“ It is impossible for me to put into words what a cool person she was or what she meant to me. There is rarely a day that goes by I don't think of her. I wish I could have known how to be there for her in the years after that accident.

She has inspired my life and continues to be the best person and friend I have ever known. We shared a love of music, laughing at weird stuff, and being a little silly. When I was new to Niceville, she was one of the first people to be nice to me at school. We were instant friends and I miss her every day.
