“ So sorry for the loss of the entire family but especially my friend Joe. "Barbara" taught me Geometry and Trigonometry in the early 1970s. She had to keep after me but I did appreciate it and learned something. It was teachers like Mrs. Goode who believed in me and the other students and gave their all to us that made so many of us into what we are today. I do appreciate what she did for all of us. If you can remember teachers from 50 years ago that had a positive impact on your life they obviously did something right. God bless Mrs. Goode and may she RIP!

“ Richard was my Little League Baseball coach back in the early 50's. The first I remember Barbara, she was 'office managing' for the biology department on the second floor of the old science building in about '64. It was always my pleasure to get a hug from her on Sundays at church. They both have a solid place in my heart.

“ I taught biology at H.M. King High School from the mid 1960's through '73 and will always remember Barbara Goode as one of the kindest, brightest, most helpful individuals I had ever known. Sshe was greatly beloved not only by the students but also by her fellow faculty and administrative staff. She really touched my life and so many others during her long and fruitful life on this Earth. Louis Alexander, Houston TX

“ Barbara was the best volunteer at Petronila Elementary Library! And she and I were presidents of our DKG chapters when we started meeting together. We had some great times over the years. I feel so blessed to have known her.
