BK every time I see the beautiful beach at Cancun I will think of you! We both shared a love for the ocean and I always enjoyed living vicariously through you when you would go on your vacations! You will be greatly missed! RIP my friend...

“ Mom,  
*I do not know what I will do without you. I feel so alone. I miss you so much. Although we did not always see eye to eye, I know that you love me and know that you know I love you. The only thing keeping me going is the fact that you are no longer suffering and that you are with your loved ones who passed before. I will honor your memory by doing the best that I can in every situation. Even though you are no longer with me, your spirit is and will be when I walk the stage at graduation. You were taken from me way too soon. I love you mom and I will cherish every memory of you.*  
Love,  
Your #1

“ I love you Kay. Forever my sister you will be. We may have had many ups, downs, ins and outs, in our adult years, but we had a special relationship and I will never forget you. I named my daughter after you, and you introduced me to the love of my life. I will forever be grateful for that. I know you are resting at peace and not hurting anymore, or fighting any of the ailments that have plagued you for the last several years. Knowing you are at peace is helping me immensely during this sad time.
