“Darrell, this morning at 5:30 a. m. I sent a message to you on the day you were to be put to rest but I guess it wasn't posted. Maybe you decided it was suppose to be between you and me only. We had a bond that can never be broken. We were like a chain without any missing links. I, as your older sister always tried to help raise you when we were young due to circumstances out of our control. As we became adults I was there for you during happy and sad times. Then the tables turned and when I went thru bad times you became the older one. That's how amazing you were and will remain that way in my heart when I join you and mother. You were so talented and smart that will leave many people at a loss on how to do things on their own. You grew at a time that gave you many trials and tribulations to work thru, however you came out of these a very, very wonderful man. I know you're with mother now and she's so proud of her little man she always called "D". You passed at a time when your circle of life finally became happy and whole. So as I end with a statement you made how you wanted to leave this earth. You said "I JUST WANT TO RIDE OFF INTO THE SUNSET ON MY HARLEY". Well my dear brother it went your way just not at sunset. After all YOU ALWAYS DID IT YOUR WAY! Ask anyone and they'd agree with me. So I have to end now because I hear you saying "RAY JEAN THAT'S ENOUGH ALREADY." I refuse to say goodbye, so I'll just say see you later.
Love you for ever and ever,
Ray Jean

“ Terri and Bryan there are really no words we can say to comfort you right now as our hearts are broken for you and for your loss. You and Darrell have been such a part of our life for so long and though our lives will never be the same our memories will always be there. Way too many stories to tell of good times as well as bad. Darrell was one of a kind and we will miss him so much. No one could tell a story like Darrell and we will miss him so much. May God give you strength to get through this and know that we will always be here for you if you ever need us.
