Eva was preceded by her faithful spouse Octavio Gamez. Eva was an artist who left us with remarkable paintings. She was a fierce defender of those treated harshly without reason. Eva was instrumental in getting her street paved with sidewalk through door to door canvassing for signatures. She worked in the cafeteria at South San ISD schools, became an educational assistant and a language proficiency tester. Eva illustrated children's books for Edgewood ISD. An editor commissioned Eva to write family recipes for a book. She worked at Cable Elementary in the Northside ISD, in Urban smARTS, an art program for at-risk students. She was a very lucky winner at her Bunco group's parties. One could not enter her house without being offered food and refreshments. As her loving family and friends gathered around her bed for their final good-byes many shared personal memories of their loving Mother, Grandmother, Aunt, and Friend.
