Tribute Wall

PW

“ Although smaller than most in stature, Harvey was larger than anyone I've ever known when it came to loyalty, compassion, respect and work ethics . He was my best friend and it was an honor and pleasure to have been able to love him and create those best-kept-secret memories that come so easy when around someone who is real. I woke up one morning and Harvey had removed all my make up brushes from their case and replaced them with general household repair tools from that massive garage. He left me a note that read : THESE are the tools you can touch while at my house or your own home. If it requires nothing more, call someone !" I carry that tool box and advice to this day. You are missed Harv....all ways....always. Pati

“ I've known him since I was six years old .; today I'm 56. That makes him seven years and one day older than I am. Never had a problem remembering his birthday.I can honestly say I've known him for 50 years.

Well goodbye my friend I won't have a problem remembering you
round our birthday I'll drink a beer for you and smile

You were a great friend

All-around great guy

Always willing to help

And never said no

We're going to miss you buddy
