

## Jeffrey P. Meyer

December 25, 1962 - April 20, 2021

Jeff was an Air Force military brat with parents who instilled a love of God, family, country and a strong work ethic that he demonstrated throughout his life. He translated the knowledge and skills he acquired through his education and years in the home building industry into a fulfilling career in water quality technology. Through his hard work, curiosity and determination he built the knowledge he needed to grow from entry level to water quality engineer and became respected throughout the industry. His career led him to long-term friendships, travels to Africa, China, Columbia and Mexico and brought him joy for the remainder of his life. Among his personal pleasures were playing guitar, traveling, hiking and biking with his wife, target shooting and water skiing. He was ever-grateful for the blessings of his life and often spoke of how lucky he felt to enjoy the life he lived. He was proud of his son Ken's military service and pending job serving veterans. He was equally proud of the strides toward entrepreneurial success that his daughter Courtney and son-in-law Juan have made. He loved each of them, his granddaughter Margot and his wife of nearly 36 years, Rhonda. He was a loyal husband, father, opa, son, brother and friend. He was and remains loved and is sorely missed. He is survived by his wife Rhonda, his son Ken, his daughter Courtney and her husband Juan Trejo, his granddaughter Margot Trejo Meyer, his mother Julie Meyer, his sisters Karen Powell, Gina Pease and numerous extended family members. He was preceded in death by his father Jim Meyer. In lieu of flowers please send donations to the United Way, Wounded Warriors or the

Parkinson's Foundation.

“ Just found out today, condolences and prayers to the Meyer's family. I worked with Jeff at Watts a few years back. Jeff was a great inspiration to me. He was always willing to help find solutions. He was a great friend and great man. I had Just spoken to him about a month ago.
