“*My name is Margaret, Larry and I met in 1999, when I started to work in the IT department at St. Philip's College. He and I developed a strong friendship over those 20 years. I quickly learned he was a man of few words. "Yup" was his common response when I asked him a question. I don't know how but I found what his interests were and we had long wonderful conversations. I know his God and family were the most important in his life. He was very proud of his nieces and nephew. We both were children of the 80's and technology so we had lots to talk about. Larry was a kind man, always willing to help anyone who needed him. After 20 years, I considered him more than my friend, he was family. I loved him and will miss him.*

“ My name is Patrick Daniels, and Lawrence and I were colleagues in the I.T. department at St. Philip's College. Even though Lawrence was a quiet soul, I could always get him to talk in-depth by asking him a question about computers or network technology. He was very professional and knowledgeable in his job as our Server Administrator and had a kind heart. I always considered him a friend. To his family, I am so sorry for your loss and my prayers are with you. I ask that God will provide you with comfort and peace. I shall truly miss "Larry".
