“ *Manuel and I worked together on a lot of substation construction projects at CPS. He was always joking and great to work with for years. There was never a dull moment when Manuel was on the job. Seems like he was always following up on Floyd's projects. Prayers go out to Manuel's wife and family. Will miss that smiling face, Bill Icke*

“ *Manuel and I started in the same office the same year in substation design(1966) both going through the technician program. Manuel was always so encouraging to me especially when I had the opportunity to move on to a different job at CPS involving politics and a lot of meetings. He would come up to my new area and pretend to heckle me as a test how I would do at the public meetings. There are so many other fine memories so numerous due to the fact we worked together daily and saw more of each other than our families. God's blessings to Bee and Manuel's wonderful family. “ Manual was a good friend of mine at CPS Energy. He showed me some of the fine points of doing substation drawings. We had a lot of good fun times together at CPS. He had my father for a teacher at SAC. We will all miss him. John Brogan
