

Mark Weiss

July 22, 1962 - July 26, 2022

Mark passed away in his sleep on July 26 with his beloved cat Sophie by his side. He loved all animals especially his dogs Echo and Echo 2. He has struggled with health issues most of his life. He graduated with a degree in Construction management from the University of Denver. He spent most of his life working in that field. One of his signature accomplishments was designing and building the front entrance to Sea World of Texas. He enjoyed tackling difficult construction projects and problem solving them. Many of his clients were minority contractors that needed his expertise. He loved to watch shows that detailed how things were constructed. He worked on writing a book for kids to help them learn about construction. Mark wanted to thank the many special care givers that supported him, took great care of him and extended his life for many years . He loved to tell stories that seemed larger than life and many were just that. He always had a joke to tell(most were inappropriate). He loved food and ordering the most expensive item on the menu. He is survived by his mom and dad Margie Bohl and Martin Weiss and his brother Mike and his family. It is said that many of a persons' best qualities are not shared until they pass. Share your memories with your loved ones while they are alive. Mark argued with our Maker and was angry with him at times but he died knowing he loved God and is in a better place now with him in Heaven. Donations can be made in his memory to Children's Church of God, 505 W Quincy St San Antonio, Tx 78212. A celebration of Life will be held at a future date.

“ Just say this and am reflecting. Went to the University o Denver with Mark and we spent a lot of time together in the Construction Management program. Mark had an amazing amoutn of energy! I found this via search and I was assuming he was still in the Central Texas area - I moved to the Austin-area about 4+ years ago and was hopeful we could reconnect. Love you man....and what's with the cats LOL!

Martin and Mike,
I am so sorry for your loss. Mark really had the Weiss smile. I extend my deepest sympathy.

Sorry to read of Mark's passing. I have numerous fond memories of him during my time with 4M. I had recently related stories to my adult daughters while taking the grandkids to SeaWorld of him taking a date up on the front entrance feature while it was under construction with his supervision. I always smile thinking of him when going through the gate.

Sending my sincere condolences to Mark's family. Although we lost touch through the years, I have often thought of Mark and I am saddened to read of his passing. Prayers of comfort for his family. I am sure Mark is at peace and being held close by the Lord.

Mark you were a very true friend. Since 2007 We work together on numerous construction projects from start to finish and I learned so much from you, and you've helped myself and many others along the way, and we are better all off because we were fortunate enough to know you. Lastly I still copy you on all my emails, for your records. Lol One day we will meet again brother.

*Your friend
Mike L*
