“ Matthew was the love of my life, my soul mate. It was Love at first sight for both of us.
He always got this grin when he drove through a yellow light. He always took care of everyone else. He always had to have 32 ounces of diet Dr Pepper every morning. Only recently he started to like coffee. He was the last person I spoke with every night. He was the most wonderful man I ever knew. Blue was his favorite color. I made him a beautiful needlepoint of royale blue and gold. He kept somewhere special so he could see it every day. He always said that he did not want to be a father and yet he was a wonderful father and helped me raise a wonderful young man of 19 and an amazing daughter of 21. When the kids were much younger, our daughter had a land line in her room and when she would get upset with me, she would call Matt without my knowledge. Matt would leave work early and come home and pick her up and they went to dinner so she could tell him all of her woes. He always came and always listened to her and somehow he made everything okay. Matt and my son always shared jokes, songs and even talked politics. Matt was so very proud of them.
We were planning to get two little schnauzers now that the kids are grown. He loved schnauzers so much. I will always love him so much. It's so hard to say goodbye.

*Most sincerely
Laura*
