

## Paul E. Gibson

September 28, 1944 - June 29, 2020

On June 29, 2020 The Lord sent down his angels to carry Paul E Gibson Sr into the everlasting light of heaven. Paul passed painlessly and in peace surrounded by his loving wife and son. Born on September 28, 1944 in San Antonio Texas, Paul was the oldest of three brothers and five sisters. He was raised by Laurence J Gibson Sr and Dr. Frances Howell of San Antonio Texas in a loving Catholic home and graduated from Little Flower High school. Throughout his life and until his death, Paul was a deeply religious man. His humble and caring temperament never went unnoticed to any one who was blessed to have known him.

Paul proudly spent 4 years in the Air Force and an additional 6 years in the Air Force Reserves as a fighter jet avionics specialist. In the early 1960's he was hired by the City Public Service Board where he spent the next 40 plus years working for the utility company servicing San Antonio. He enjoyed fishing, hunting and nature, car shows and just about anything mechanical. There were not a lot of things he couldn't fix just by studying how it was put together. His intelligence was nothing less than spellbinding. Heaven truly has received one of the most beautiful and talented angels ever to walk this earth. From a devoted husband and loving Father and Grandfather to that magnetic smile given so freely to all his friends and coworkers. Paul you will always be with us all.

Paul is survived by his wife Carol A Gibson and son Paul E Gibson Jr.

Grandson, Story N Gibson, Laura and Paul Dylla, Josephine and Joe Alwine, Helen and James Noll, Tony and Ruth Krawietz, David and Julie Krawietz, Laddie and Cheryl Krawietz, Peggy and Scott Lindley, Marlyn and Fabian Wiatrek, Aunt Louise Jurgajtis, Fabian and Gladys Janysek, Linda Janysek, Stepmother Geraldine Krawietz. Stepsister Fran lane and nephew Russell Lane. And the numerous extended families and friends.

*When we first moved to San Antonio, Paul and Carol were the first couple we met here. They made us feel welcome, safe, and Carol took me around everywhere! To help get our lives started. Paul was always a helpful, smart man that would help anybody, with anything . He was a very special man a will be deeply missed.*

“ I Started work in the Power Generation division at CPS Energy in February 1988, and met Paul about a month later at the JT Deely power plant; I carried two of his three tool bags for the next year, and learned a lot from him during that time. A couple of years later, he was one of the foreman who approved my promotion to Apprentice Journeyman, and then later I was a Plant Journeyman under Paul at the JK Spruce power plant, which all of us helped build. Paul set a standard for our crew that was, in my opinion never equaled, before or since, and was one of those rare bosses that would come out from behind his desk and lead from the front, picking up the tools and teaching with them rather than sitting behind a desk.

*That was a quality I tried to emulate when I was promoted to Supervisor and still do to this day in my current positions as best I can. Paul led by example like few men I have ever known or worked for, and has well earned his eternal rest.*

*Thanks, Paul for all the memories your lessons will not be forgotten.*

“ *Paul was one of my Foremen when I started at CPS. I was a naïve young woman in a man’s world. Paul saw my determination and my potential, even though I was unsure. Paul’s way was to push, question and teach, he always wanted us to reach the best of our abilities. He once told me there are many ways to learn, not everyone understands in the same way. That has stuck with me my whole career. I’m now in a position to carry that wisdom forward. I had the pleasure in 2010 of working beside Paul, that experience allowed me to see Paul for who he really was a brilliant, kind, hardworking, unjudgmental, loving, family man. We have lost Paul to the angles, but he will forever live in our hearts and actions.*

“ If Paul couldn't fix it the thing was beyond repair. I don't know how many times at the plant I'd hear he was on vacation and then walk into the place and there he was working on something that needed to be repaired. I hope he enjoyed retirement because he definitely earned it.

“ Paul Gibson!! What a friend and great person to work with. Like his obituary said, he was one of a kind at being able to analyze something and fix or repaid it quickly. A master at working on a VW engine or a Torqeflight tranny. At work if we needed any instrumentation fixed, Paul was my first choice of technicians to get it done correctly and right away.

Paul always seemed to love coming to work and work he did, not a lot of idle talk. He was always happy and smiling. Paul got along with everyone from the top of the company to the newest employee, always talking good about CPSB.

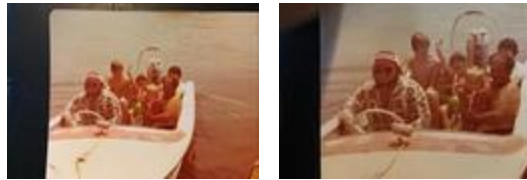

We at City Public Servise will greatly miss Paul and will always have a smile on our face thinking of him.

“ My Prayers and thoughts are with you all. I worked with Paul at CPS. Paul was always a Love, he brought and left Joy wherever he was. He was a dear and i always remembered him with fondness. May you all feel the presence of our Lord Jesus, the Love of ABBA Father and feel as Holy Spirit washes over each of you, to comfort you, to hold you tight through this time. Many Blessings to you all.
