“ Ray, you were more than a father in law or ex father in law. You were a dad. You always had a smile and a hug for me. You always told me you loved me before I left your house and you always made sure I kept in touch with you while I was on my way back up north. Told me if I needed anything while on the road to call you. To see your face light up when I walked into the room always made me smile. I am a better person today because you were a part of my life. I knew when I saw you in March it would be the last time but I hoped i was wrong. When I got the call you were gone I just sat there and cried for hours and as soon as I could I was on my way to Texas. It was hard to say bye to you today but I know I will see you again. Love you Ray

“ Big brother,how do I begin to express how much i will miss you and love you .? I don't know how to accept that you are not just a phone call away for me ,to hear your laugh and love over the phone so many miles away . You are now my guardian angel I will talk to in my prayers. You always made me feel safe, from the time I started to school and you let me sit in your lap on the bus ,until you carried me to my class on your shoulders.. now I will always carry your love and memories in my heart . thank you for fighting for our country and our freedom . you always put everyone first and worried about how I was feeling when the pain you endured was nowhere near mine. I love you big brother . Fly high . I will see you again someday . until then a part of my heart will be missing . I love you sooo much .

“ Fly high my Uncle. We had many talks over the years. Even though you was so far away. We felt your love. Your smile, and laughter will never be forgotten. No matter how bad you felt you always put others first. Unc. Until we meet again your memory will hold strong. Love you Chad Timms.

“ Words cannot convey how much you are loved and missed. You were never my uncle. You were a best friend, grandpa, and protector. More concerned about how others were than your own pain. The world is smaller without you, but I know I have another angel watching over me. Your love and strength knew no bounds. Gentle giant. I love you so much and know you are at peace and pain free now. You will always be in my heart and thoughts until I see you again.
