“ Ray was a colleague and friend in Occupational Medicine for many years. We tried to assist each other in our careers and job searches. I am very grateful for all the help and support from Ray over the years. We lost touch a while ago and I am sad to learn about his passing. Mostly we ran into each other at medical conferences. Each of us faced challenges and he always impressed me with his resilience. God Bless Ray and my sincere condolences to the family

“ I learned of Ray's passing only today. We were friends and classmates at St. John's. We both shared an interest in science and had many good discussions. I saw Ray at our 50th St. John's reunion. He accomplished so much! I know he is loved and missed by many. - Penn Glazier
