“ I only knew Joanna a short period of time compared to most we new each other about 3 years and this last three years were I think the hardest years she had of her life. I would get weekly phone calls sometimes daily just to see what I was doing and making sure my mom was okay which they had only spoke a couple of times but they where good conversations. I went to the rehab. here in Medical Center every other day taking lemons and whatever she wanted. I knew what she had done for so many people and when she needed help where were they. She gave and gave because that was the kind of person she was. She was a great person and no one can take that memory away if you needed help she was right there. It was hard towards the end because she would call me and just want to go with her mom and dad I cried with her and understood how she felt. I will never have another friend like her she was one of a kind. I wish I would have known her when she won all the huge crowns on display at her home, we never talked about it much other than when I saw them she got a kick out of my asking and this one what did you do to get those huge crowns. I know one person that helped so much Patty Foley she is a god send I couldnt afford but \$100 to help her pay all the bills stacking up at home the 5 months in that hospital I wish I could have done more. I will never forget the, kind, outgoing, tell it like it is, Honest person she was! I know of one person that had the nerve to go on FB and say something about the go fund me account and upset Joanna really bad but then once Joanna passed had the nerve to act like she was there for Joanna and offer condolences whenever she reads this she will know who I am talking about, and shame on you for all the text mgs. you sent. Joanna was a fighter through the years I knew her but I know she is at peace now no hurting, no hospital just eternal peace the last time we spoke she stated I just want to go and see my mom and dad so if the lord takes me I'm at peace with it. I will never forget her and I hope to see her when its my time to go home. You are forever in my heart and soul. You are Free now, that's all that matters. With True Love.....Michelle

“ Oh how my heart aches brother (Joanna) He was a loving, caring talented person, he loved his family and friends, he gave more than he received, that was just his way. He started off working at Albertsons groceries, then as a chef at the Marriott when it first open. From there on he was a hair stylist, and worked as a bartender at the Electric Company, then went to work at Pegasus, and became a performer. During the time as a performer for Lgbtq+ he won four crowns singing and performing. He stood proud and his family backed him up 100%. My brother I miss you so much calling me being a pain in my butt, but I know you were tired of being sick, you couldn't do what you wanted because of your health. Now you can go anywhere you want. I won't say goodbye, but I will say I will see you later. LOVE YOU you will never be forgotten you will always be in my heart.

*I have known her since we were just kids. My parents and her parents were best friends. They were always together when my father was playing with this band. He was always the clown of the family making everyone laugh. You are in a better place with the Lord. May you rest in peace. Darlene Resendez*
