Tribute Wall

TB

“ Steve was a very good friend of mine at SAC. I didn't know anyone in class and he cleared a spot for me to sit & we chatted it up like we were old friends. I lost contact due to switching phone carriers and moving around amid my own personal drama. I happened to be browsing the web to see if he was on facebook for me to connect again and found this. Never a had chance to say goodbye but I will say he was one the best, loving people I've ever met. I'm so very sorry he's gone, but I have great memories of him.
