“ *When grandma got a new cell phone, it wasn't easy showing her how to use it. I remember my mom and I called her about 20 times before she finally answered it, because she was swiping her screen in the wrong place the whole time! She also had a hard time changing her location in her weather app. So, every call we made to each other she'd always let us know if it was raining in Washington. We joked about it for months until she came to visit and we finally had it fixed.* ”

“ I remember for a while when I was younger, grandma would break down old bits of jewelry and send it to me. I would make something new and turn it into bracelets, necklaces and earrings. She always kept the jewelry coming and had other small supplies like hooks, wire, and beads. Now, every time my mom needs a necklace or earrings fixed, she comes to me.
