“ Will, you were one of my favorite people to be around because of how much energy you had. People seemed to be drawn to you. You were an amazing musician and I rarely missed a show up until I moved and even when I would come home to visit if you had a show I would try to make it. Almost all of my best friends I was able to meet and become close to because of you. All of my fondest memories from when we were younger had you in them. You taught me how to become a great Pokémon trainer and every time I play I will think of you. We were together through my last year of high school and my first semester of college at St. Mary's. The last time I saw you was the 4th of July in 2014 and I stayed up late with you, Flo, Andrew, and Christian talking. I will forever remember and cherish all of the times we had together. You are greatly loved and missed. I am so proud of the man you grew up to be. Thank you so much for your service to our country. Rest in Peace, I know you are up there creating beautiful music. I love you and miss you.

“ I remember when you could come over to my place in 9th grade and
we would drum for hours to fflt chiodos and all the other great bands
at the time. You showed and taught me a lot not only musically, but
spiritually as well. I will miss you Will, Rest In Paradise.

“ I grew up with will since the 1st grade. Spent countless nights
staying up till the early mornings playing video games and watching
dragonballz. I will always cherish the time we spent together and the
friendship we had. He was the closest person I had to a brother.
Blue skies, devil dog. I will miss you.

“ We had a lot of good times together goofing off and playing music. We were on the road even for a short time touring in our band Starluck along with Robbie and Chris. We met a lot of new and interesting people along the way and had a great many positive and even sometimes negative experiences. He always had a great sense of humor and pushed through in a pinch. (Especially that one time when the entire computer crashed JUST as he finished hours of programming the final drum tracks for one of our songs and it didnt save his work haha!) Even then he managed to take a deep breath and keep going, he finished the track and it ended up even better than the first time! That's the kind of guy Will was, among a great many other things. I am glad that I had the honor of sharing a small portion of my life with him.

“ Will was a great young man and full of so much energy. I remember numerous times he and Robbie having a sleep over, I'd have to make Will do 50 jumping jacks in the middle of the living room to get some of his energy out. ~~Naomi (Robbie's mom)
